PROFILE

I am a WordPress Website Developer with hands-on experience in building functional, responsive, and performance-optimized websites. I work with WordPress themes, plugins, Elementor, and custom layouts. I focus on website speed, mobile optimization, and clean UI. I am eager to learn and grow as a developer in a professional environment.

WORK EXPERIENCE

WordPress Website Designer Personal Projects

- Designed and developed complete WordPress websites
- Customized themes and layouts using Elementor
- Built portfolio, business, and service websites
- Ensured mobile, tablet, and desktop responsiveness
- Managed plugins, forms, and basic site optimization

PROJECTS

IB Optics - E-commerce Eyewear Store

Developed a premium, 16-page high-conversion dropshipping store targeting the Australian market using **WordPress, Elementor, and WooCommerce**.

- Integrated advanced **Email Automation** workflows for abandoned cart recovery and personalized customer engagement.
- Applied custom **PHP and CSS** logic to ensure a unique, mobile-responsive UI/UX design with optimized performance.
